

Athenaeum

Were you upgraded?

Many of you have been updated over the holidays (we know, we have spoken to many of your techies). There are a few things for you to remember:

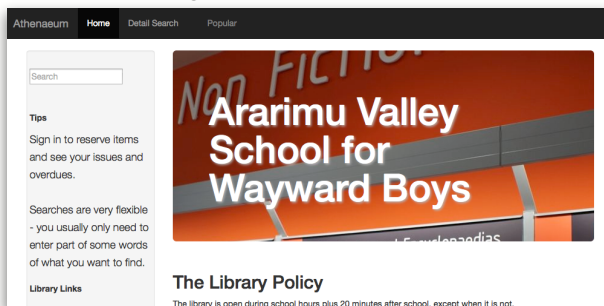

- The new manual, is here: [Athenaeum Pro Manual](#)
- Your passwords have been reset to the shipping defaults...see page 14 of the manual.
- If KAMAR schools have no borrowers coming in automatically, then a server "schedule" has not been enabled: talk to your IT Technician.
- If you had the web templates for your earlier version, then we have some compatible and updated templates, we need to speak to your web expert.
- You must check all of your preferences in the admin section, including the settings in the "issues" tab such as "bar code modification". Contact us if you don't know what to do.

Differences between various versions of Athenaeum can be found at this link: [new features](#)

Athenaeum Pro 2013 Web Templates

Are a rewrite using modern web standards, responsive design and interact at a deeper level with Athenaeum Pro.

Responsive design is a concept that recognises different devices have different screen sizes and that one screen configuration does not fit all.

These web templates also pull more information out of Athenaeum. In Athenaeum Pro 2013, there is a new tab in the admin section where you can specify the front page content (headings and text) as well as the sidebar content (displayed on each page) and relevant web pages below the sidebar.

Auckland Training 27 February

Is scheduled for 9am 27 January at Albany Junior High School. It is a chargeable session (is your Annual Support Contract up to date?). If you would like to go, please contact us for details and costings (if any).

Importing Borrower lists

If you are a KAMAR library, then this is automatic. If your school uses other programs such as eTap or Musac, then exporting the data is simple from such programs is simple, contact us for more information.

MARC import

We recently came across a supplier of MARC records whose data suddenly wouldn't read correctly into Athenaeum. We found that they had made (possibly unwittingly) a tiny change in the file format that needed a small adjustment in Athenaeum. If your Athenaeum is only reading some of your MARC files, don't wait to contact us.

Label Price Increase

From January 2014, there is a one time set-up fee of \$10+GST for bar code labels for new schools. Subsequent orders will not have this fee.

Athenaeum Light 2014

Is almost ready. There are some tweaks to complete to better exploit the new "Web Direct" technology built into FileMaker Server 13 and some neat features for FileMaker Go 13 users on iPads. A pre-release version is available for download from the Athenaeum web site as well as a new manual.

barcode	title	author	call	class	location
4695	Inside the orchestra: the story of the instruments	AINSLEY, Rob		794	Non-fiction
1297	Bears on 3 Wheels	BERENSTAIN Stan and BERENSTAIN Jan	B		Fiction shelves
